# 9 Reading 🧾

### **Before Reading**

Look at the graphs below. What do you think the article will say about college students?

# **Do College Students Have a Healthy Lifestyle?**

- 1 The majority of college students seem to be quite healthy. They don't suffer from health issues that older people have because **they** are still young. However, that doesn't mean
- 5 they shouldn't try to improve **their** lifestyle. We carried out research at a local college to find the truth about students' lifestyle: their eating, sleeping, and exercise habits.
- Our findings below show that the *Average* 10 *Student Diet* differs greatly from that of a *Healthy Diet*. A healthy diet contains plenty of fresh produce, and moderate amounts of protein and grains. Yet, the diet of most students consists mainly of rice and noodles.
- 15 It also contains a lot of fried food, which suggests that they eat too much fast food and need to add more fresh fruit and vegetables to their diet.

Getting the required amount of sleep is another important factor in students' health. Studies have shown that **it** has a positive effect on memory and concentration. We recorded the sleeping habits of three college students for one semester. The *Sleep and Test Scores* results in the graph below support this theory: when the students got enough sleep, **their** exam scores were much higher. On average, however, most of **them** only get about six hours of sleep every night.

<sup>25</sup> Finally, we interviewed students to find out how much they exercise. The *Student Exercise* graph below shows that the majority work out for at least 30 minutes a day. This is positive, because students **who** get enough exercise are usually happier, more energetic, and find it easier to pay attention.

Unfortunately, many college students are so busy focusing on their studies that they don't
take time to look after **themselves**. All it takes is some good time management. Healthy habits can help them succeed in their classes, so they should try to get enough sleep, eat well, and exercise.

 $(\bullet)$ 

### **After Reading**

#### Answer **true** or **false**.

- **1.** \_\_\_\_\_ The writer thinks that most college students have healthy habits.
- **2.** \_\_\_\_ The diet of most students doesn't contain enough fruit and vegetables.
- 3. \_\_\_\_\_ It's probably not a good idea to stay up late studying before an exam.
- 4. \_\_\_\_\_ Most college students don't get enough daily exercise.
- 5. \_\_\_\_\_ If students manage their time better, they can have a healthier lifestyle.

### Discussion

**A.** Discuss the questions.

- 1. What do you think about the study on college students' health habits?
- 2. How does your diet compare to the ones shown in the graphs?
- 3. Does the amount of sleep you get affect your test scores?
- 4. Do you think you get enough exercise every day?
- **5.** Discuss the advantages of having a healthy lifestyle.
- B. Read and discuss.

Many studies agree that certain foods can boost brain power and memory. These include oily fish (tuna, salmon, sardines), green vegetables (spinach, kale, broccoli), berries (blueberries, blackberries, strawberries), and dark chocolate. What do you think?

What other foods do you know about that are beneficial and in what ways?

## 10 Project 🔯

Work in groups. Do a survey to find out how often and how long group members spend on the following activities:

on chores on homework on a hobby/sport watching TV on the Internet shopping using a cell phone other: \_\_\_\_\_

Discuss and compare results as a class. What habits or pastimes are the most common? On average, how often and how much time do members of the class spend doing them?

# 11 Writing 🗾

A. What did you learn about the habits of young people from your class survey? Complete the chart with your findings.

Habit/Pastime	How often?	How long?

#### Writing Corner

Cohesion is important in writing. Cohesion means the way sentences link together. One way to make writing more cohesive is to use pronouns and possessive adjectives.

- Pronouns and possessive adjectives link ideas in sentences.
   <u>Teenagers</u> who play a sport say they often become friends with their teammates.
- Pronouns help avoid repeating the same word or words.
   Football is popular because it is fun. It has simple rules, so it is easy to learn.
- Pronouns can refer to one word or a group of words.
   <u>Playing a team sport</u> is beneficial because it keeps young people in shape and teaches them about cooperation.

B. Look back at the Reading on page 8. What do the pronouns or possessive adjectives refer to?

- 1. they (line 3)
- **2.** their (line 5)
- **3.** It (line 15)
- **4.** it (line 20)
- 5. their (line 22)
- 6. them (line 23)
- 7. who (line 27)
- 8. themselves (line 30)

and the second second

C. Complete the text with suitable pronouns.

Teenagers in my country are obsessed with (1) \_\_\_\_\_ computers. The majority of (2) \_\_\_\_\_ spend an average of two to three hours a day on the computer.

(3) \_\_\_\_\_\_\_ regularly surf the Internet to learn about things that interest (4) \_\_\_\_\_\_, and (5) \_\_\_\_\_\_ sometimes use
(6) \_\_\_\_\_\_ to do research for school. Young people also frequently communicate through social media like Twitter and Facebook. They say that (7) \_\_\_\_\_\_ is a great way to keep in touch with (8) \_\_\_\_\_\_ friends. There are other teenagers
(9) \_\_\_\_\_\_ just prefer to play video games.

For teenagers, the computer is a tool for learning and a means of communication. But most of all, (10) \_\_\_\_\_\_ is simply entertaining.

D. Write a report about one or more of the most common habits and/or pastimes among young
 people in your country. Use information from your survey. Remember to use adverbs of frequency
 and pronouns.

A. Read the email. Do you think Adnan is having a good time in Toronto?

#### Dear Mom and Dad,

It was so nice to hear from you. I think of you all the time, too. You don't need to worry about me because I'm doing fine.

It was a little difficult for me to adjust at first because everything here is so different. The weather in Toronto is quite cold. It's about 14°C right now, but they say it can get really cold in the winter. The food is strange, too. The meals at the cafeteria are pretty good, but nothing like Mom's cooking. This afternoon, we had vegetarian pizza and salad.

The university has quite a large campus. I got lost on the first day, but I managed to ask for directions and made it to class on time. As for my classes, they are really interesting and the teachers are extremely helpful. I have four hours of English every day, so I'm learning quite fast. I still can't speak very well, but my teachers and classmates usually understand me. By the way, my classmates are very friendly, and I've made some new friends. We study together and hang out in the evenings.

Next week, our class is going to visit Niagara Falls. They've arranged for a tour guide to show us around. I'm sure it's going to be fantastic. I'll send you some photos.

I'm going to the library to study now. So, let's talk on Skype this Saturday. I miss you! Love,

Adnan

We place a comma after the time clause when it begins the sentence.

As soon as we arrive, we're going straight to the hotel.

**A.** Match each phrase with the correct time clause.

### 4 What Do I Need to Buy?

#### **Before Reading**

9 Reading 🛽

What do you know about the foods on these pages?

# **Foods from the Americas**

Read about the foods from the Americas. Then try out the recipes.

#### Tomatoes

Tomatoes are native to Mexico and Central America, and the Aztecs grew them back in the eighth century. In the sixteenth century, Spanish explorers introduced tomatoes to Spain, and the tomato's popularity spread quickly through Europe. The French, Germans, and Italians absolutely loved them. But the British thought they were poisonous at first. In the nineteenth century, a British diplomat introduced tomatoes to the Middle East, and now Egypt is among the world's top tomato producers.

#### Avocado

The Aztecs also cultivated the avocado (they called it ahuactl). The avocado is an oily fruit, rich in vitamins A, B, and C. The fruit does not get ripe on the tree. People need to pick it from the tree before it develops its flavor and full maturity. Sailors used to call avocados "seaman's butter," because the fruit lasts for a long time, and it was good for sea voyages.

#### Chocolate

Chocolate (chocolatl in the Aztec language) was the treasured drink of the Aztecs. When the Spaniard Hernán Cortés arrived in Mexico in 1519, the Aztecs gave him chocolate as part of a royal welcome. It is said that the Aztec Emperor, Moctezuma, used to drink 50 cups of chocolate a day out of a gold cup. The Spanish introduced chocolate to Europe. However, it was only in the nineteenth century that Henri Nestlé, in Switzerland, created the first bar of chocolate. Nowadays, very few people can resist the sweet food—once only for kings.

The lovable, cuddly-looking panda is one of the world's most popular animals. Unfortunately, it's also one of the most vulnerable species. Pandas live only in the dense bamboo areas of the misty, rainy forests of southwestern China. Today only about 1,900 pandas remain in the wild. The Chinese government and various conservation organizations are working to protect pandas in their natural habitat. They want to maintain a "bamboo corridor" through which pandas can move freely. Bamboo shoots and leaves account for 99 percent of a panda's diet. An adult giant panda eats up to 95 pounds (45 kilograms) of bamboo per day over a period of about 16 hours. So it is important to have a protected place with a lot of bamboo available.

## 3 Reading 🛓

#### **Before Reading**

- 1. Look at the photos. What do you think the text is about?
- 2. What do you know about the different ways of conserving water and providing freshwater?

Imagine going to get a drink of water and discovering that the faucet is dry; or jumping into the shower to cool off on a steamy hot day and discovering that there's no water... Most of us simply take water for granted. We think there's plenty of it—in oceans, lakes, rivers, and streams. But this is not the case. The water we are using now is the very same water that the dinosaurs used millions of years ago. It is simply recycled over and over again. There will never be any more water on Earth than there is now.

Most of the water on our planet (97%) is salt water stored in oceans. The remaining 3 percent is freshwater—and most of that is locked up in ice caps and glaciers. In fact, less than 1 percent of the planet's water is usable freshwater. It's alarming that at the projected rate of population growth, humanity will use up more than 70 percent of all accessible freshwater by 2025.

Water is essential to people in more ways than we might think. We need water for cooking, bathing, transportation, and recreation. We eat aquatic plants and fish. We use water to irrigate our crops, to produce hydroelectric power, and to manufacture products. Water is indispensable for human health and well-being. People can live for two months without food, but will die in less than a week without water.

One of the greatest challenges facing the world in the twenty-first century is to preserve our natural reserves and to provide safe drinking water to the 20 percent or more of Earth's population that currently lacks easy access to it. The United Nations General Assembly proclaimed the years from 2005 to 2015 as the International Decade for Action "Water for Life."

One of the solutions to the problem of water conservation is to recycle wastewater. Stensund Folk College near Stockholm, Sweden, for example, is putting wastewater to good use. The school treats

the wastewater in a greenhouse, where it is then used to provide water to plants and fish in an integrated cultivation system. In Lima, Peru, ponds full of algae and other small organisms clean up the wastewater. After 20 days, it is safe for reuse. Currently many factories, hotel chains, and apartment buildings around the world are installing water recycling systems.

We all need to be part of the solution, too. We need to learn how to use our water wisely. So the next time you have a drink or take a shower, think of how fortunate you are, and save water for life.

Parrot, parrot, what have they done to you? Parrot, parrot, what have they done to you? They put you in a cage and made you talk. They cut your wings and made you walk. Look what they've done to you. Just look what they've done to you!

River, river, what have they done to you? River, river, what have they done to you? Your crystal waters no longer flow. The fish and the lilies no longer grow. Look what they've done to you. Just look what they've done to you!

Forest, forest, what have they done to you? Forest, forest, what have they done to you? They cut your trunks and cut your branches. They said they needed you for ranches. Look what they've done to you. Just look what they've done to you!

But we can save the birds and bees, Mountains, rivers, flowers, and trees. It's a problem that we all must face. If we all just do our share. Save the water, clean the air. We can make the world a better place. We can make the world a better place.

- 2. How have these things changed people's lives?

# VENTIONS

Many inventions aren't as old as you think. The following inventions are part of people's everyday lives, but some haven't been around for all that long. Read about their history. Does any of the information surprise you?

### **PRINTERS**

۲

Mass printing has been around since Johannes Gutenberg invented movable type and the printing press in 1440 in Germany. Nowadays, small, portable, high-tech printers can be found in offices and homes everywhere.

### **CAMERAS**

Digital photography hasn't been around for that many years. In 1975, Steven Sasson, an engineer at Eastman Kodak, captured a blackand-white image on a digital cassette tape at a resolution of .01 megapixels. Before that, cameras used rolls of film to produce a photograph. George Eastman introduced

rolls of film to the public in 1888 for use in his box camera.

### COMPUTERS

Computers have changed the lives of so many people. The IBM 701 computer produced in 1953 was huge, slow, and took up an entire room. It was the first computer that was successfully sold to businesses. Smaller PCs came into widespread use in the 1980s. Over the last few years, laptop computers have become smaller, faster, and lighter, and they contain a greater number of features.

### **TELEVISIONS**

Television has been

around for a long time. The television set has become a common household device. It first became commercially available in the late 1930s, and blackand-white TVs became widespread in homes in the 1960s. Nowadays, we have digital color TVs and even mirrors that are also TV screens.

### **STOVES AND OVENS**

The first successful gas stove appeared in 1826, and the first electric stove in 1891. The microwave oven was invented by accident in 1946, when engineer Percy Spencer realized that microwaves could heat and cook foods faster than conventional ovens. The first microwave oven for use in homes was produced in 1967.

### **CELL PHONES**

Portable cellular phones first appeared in the 1970s. The early model was called "the brick." It weighed 2 pounds (907 grams), offered just a half hour of talk time for every recharge, and sold for \$3,995. Even though it was clumsy and expensive, consumers lined up by the hundreds to buy the first cellular phones as soon as they hit the market. Since then, phones have gotten smaller and much lighter, and they have become a necessary part of everyday life.

## 9 Reading 🗾

#### **Before Reading**

- 1. What do you know about early film production?
- 2. What do you know about special effects?

# **A HISTORY OF SPECIAL EFFECTS**

- Audiences have been fascinated by the moving images in films ever since the Lumière brothers first showed short films in a café in Paris on December 28, 1895. That day, the audience screamed when a train
- <sup>5</sup> on the film came straight toward them. Since **then**, filmmakers have used various techniques to amaze viewers. **These** techniques form the art of special effects—and create the visual illusions on the screen.

One of the first special effects used in motion pictures

<sup>10</sup> was discovered by accident. While filming in the streets of Paris in 1896, Georges Méliès's camera stopped and started again. When he viewed the film later, he found that the "stop trick" had caused a bus

to turn into a carriage and pedestrians to disappear or change into different people. Because the film 15 sequence had been interrupted, the picture seemed to mysteriously change before his eyes. Since **then**, filmmakers have used tricks like **this** to make people see things that didn't happen in real life.

Filmmakers today still use other old techniques such as miniatures and the animation of small-scale models. One of the most famous special effects in film history was the title character in *King Kong*, made in 1933. The huge gorilla on top of the Empire State Building was actually only 18 inches (45 centimeters)
20 high. The film contained many revolutionary technical innovations for **its** time.

Another classic was *Star Wars (1977)* and its sequels, created by George Lucas. His ideas for the imagery and action scenes were so fantastic that the special effects crew often had to invent new techniques to accomplish them. **They** made many improvements in effects technology and developed a computer-controlled camera to create scenes with more realistic motion.

ر التعليم Ministry د**54** .cation 2024 – 1444

- 25 Nowadays, digital technology has given special effects a totally new dimension. Films such as *Jurassic Park, Toy Story, Transformers,* and *Pirates of the Caribbean* have become references in the art of visual effects. Imaginary
- 30 situations and characters that only existed in books and comic books, such as *Spiderman*, have also been made to look realistic on television thanks to computer-generated images.

The art of filmmaking never stops. What amazing visual effects will filmmakers use in the future? You'll see **them** on the screen soon!

#### Writing Corner

#### For better cohesion in writing:

- Use subject, object, and possessive pronouns or possessive adjectives.
   I collect stamps. I keep them in albums according to their country and date.
- Use demonstrative pronouns and adverbs like: *this, that, these, those* or *then, there*.
   I started collecting stamps five years ago. Since **then**, I've collected over 2,000 of them.
   This is the oldest stamp that I have. Those are from Argentina.
- Use relative pronouns like: who, that, which.
   The man who gave me this stamp said it is very old. It was on a letter that he received when he was a young boy.

#### B. Read the paragraphs. Circle the pronouns. What or who do they refer to?

I have one possession that is really important to me. This is my bike, which is special for many reasons.

I've had my bike for about two years. When I first saw it in the window of the sports shop, I just knew that I had to have it. My parents agreed that I could buy it, but they said I had to pay for it myself. That's one reason why it's so special to me. I'd never bought anything so expensive before. Since then, my bike and I go everywhere together. I ride it to school, to the park, to football practice, and sometimes I just ride it without any destination in mind.

I always try to keep my bike in good condition, but sometimes it breaks down. I've learned to repair a flat tire. Once, the chain came loose, so I learned how to fix that, too. Whenever I manage to save a bit of money, I like to get new accessories for my bike. I've bought reflectors, new handle bar grips, a bicycle

pump, and a water bottle. As soon as I save enough money, I'm going to buy a Cateye Cycle Computer that calculates distance and speed.

I love riding and exploring new neighborhoods. Riding helps me clear my head and forget about my worries. It's great exercise, too. Of course, I'm careful when I ride in traffic and I always wear a helmet.

## **12** Form, Meaning and Function

#### **The Passive**

We use the passive to emphasize the *action* and not *who* or *what* does it. To make the passive, we use the verb *be* and a past participle.\*

Simple Present:	Millions of people use the Internet. (active) The Internet <b>is used</b> by millions of people. (passive)
Present Perfect:	Technology has changed our lives. (active) Our lives <b>have been changed</b> by technology. (passive)
Simple Past:	Alexander Graham Bell invented the telephone. (active) The telephone <b>was invented</b> by Alexander Graham Bell. (passive)

The person or thing that does the action is the *agent*. When we want to show the agent, we use by + the agent. When the agent is not necessary, we leave it out.

A thief stole my bike. My bike **was stolen**. (*by a thief* is not necessary)

Someone has broken the window. The window **has been broken**. (by someone is not necessary)

The boys broke the window. The window **was broken** by the boys. (necessary)

# 6 Do You Know Where It Is?

## 🛛 Listen and Discuss 🧭

What do you think people mean when they say a town or neighborhood has a good quality of life?

## **Do You Know Where This Place Is?**

Look at each photo, read the text, and guess the name of the city or country. In what ways is it similar to or different from where you live?

The city is known to be one of the safest cities in the world. The overall crime rate is roughly the same as that of Singapore, but lower than that of Tokyo, Toronto, and many other large cities.

The public transportation system is the most efficient in the world. The bullet trains can travel at 186 miles (300 kilometers) per hour and are extremely punctual. Fares for the express trains are as expensive as airplane fares, but overall, the time required for the train trip is usually shorter, since there is no need to travel to an airport.

It is home to one of the oldest universities in the world and one of the largest. Nowadays, the town isn't as quiet as it used to be, but the quality of life is still just as good. There are lots of green areas, and a quarter of the population cycles around the town: over the bridges, through the parks, and along the narrow streets.

- Adel: Since I started college, about two years ago. The apartment was a bit run down, so I had to renovate it.
- Faris: Well, you did a good job. It's really nice and cozy.
- Adel: I'm glad I moved into this neighborhood. It's quiet and safe, and I have really nice neighbors.
- Faris: Are there a lot of stores and green areas in the neighborhood?
- Adel: Definitely! There are parks and supermarkets and a mall. The only thing is that I spend a lot of time commuting to college. But you can't have it all. What's your place like?
- **Faris:** Do you know where the Rangers' stadium is? I live about two blocks away. I often can't find a place to park, and there's sometimes a lot of noise because of the games.

### 9 Reading 🛄

- **1.** Which cities in the Middle East do you think have the best quality of life?
- 2. What do you base your opinions on? Give reasons.

King Fahd's Fountain 🕨

# THE BRIDE OF THE RED SEA

- For 20 consecutive years, Jeddah has been named a "global city" by the GaWC for offering a high quality of life to its citizens. So what makes Jeddah a global city and one of the best
- 5 places to live in the Middle East? Residents and visitors point out several aspects relating to everyday life, such as the city's cultural diversity, modern architecture and engineering, rich cultural heritage, and high quality of education.
- 10 Jeddah is a leading destination for international students and travelers. It has several public and private universities that provide a very high standard of academics. Jeddah is also the gateway to the Holy City of Makkah and hosts
- 15 millions of pilgrims from around the world on their way to Hajj every year.

Jeddah has been an example of modern architectural and engineering innovation since the 1980s. One of the city's major landmarks is

- 20 King Fahd's Fountain, the highest fountain in the world. It jets water as high as 312 meters (1024 feet) and can be seen from nearly everywhere in the city. Other landmarks include the NCB Tower, the IDB Tower, and the Jeddah
- 25 Municipality Tower. There are also plans to build the 1,000-meter high Kingdom Tower, which, when completed, will be the world's tallest building.

#### 30 During the 1980's, many works of art were introduced into Jeddah's public areas, making it one of the largest open-air galleries in the world. Modern sculptures, ranging from abstract works to traditional coffee pots and

- airplanes, decorate the pedestrian streets and roundabouts of the city. There are also a number of museums and galleries to visit. Bayt Naseef in Al-Balad was once home to the wealthy merchant family who hosted King
- 40 Abdulaziz Ibn Saud in 1925. Today, it houses a historic museum and heritage exhibits.

The historic center of Al-Balad is a charming blend of traditional houses and modern glass skyscrapers, and its huge marketplace features
a combination of traditional *souqs* and designer boutiques. Today, huge efforts are being made to preserve its historical architecture.

The city is also famous for its recreation. It is home to many famous football and athletic

- 50 clubs. A light breeze cools the coast in the Corniche area, where visitors can eat at the many restaurants, relax by the beach, and have fun at the amusement park. And the beautiful coral reefs of the Red Sea are popular
- 55 with scuba divers. There's always something interesting to do in Jeddah, the "Bride of the Red Sea."

What do you know about twins? Have you ever met any?

# You Look Just Like Me!

"Hi, Eddy. We're going to be in math class together again this semester, aren't we?" "Sorry. I'm not Eddy."

"Nice to see you again, Bobby." "Sorry. I don't know you." "You're Bobby, aren't you?" "No, I am not. I'm Eddy."

This is the story of an amazing coincidence. Three brothers—triplets—met for the first time at the age of 19.

Bobby Shafran started a new semester at

Sullivan Community College in New York. The previous semester Eddy Galland was a student there. The two teens looked exactly alike. Another student confused Bobby with Eddy, and then he realized that the boys were probably brothers. That student introduced Bobby to Eddy. The two boys found out that they were in fact twins, born at the same time. The boys were orphans and grew up in two different families. The families didn't know that their baby boys had brothers. But even more amazing was this. After the story was in the newspapers, another boy, named David Kellman, realized that he was their brother, too—also born at the same time. So, the twins became triplets!

There are many touching stories of orphans who meet for the first time as adults. Another well-known story of twins is that of Daphne Goodship and Barbara Herbert. They met for the first time at the age of 39. When they met, each was wearing a beige dress and a brown jacket. Blue was their favorite color. They both liked their coffee cold and black. Well, perhaps, that isn't very surprising, is it? But how about these similarities? They both fell down some stairs at the age of 15, and later they had problems with their ankles. They both used the same recipe book and sometimes cooked the same meal on the same day. And to scientists who studied them, they had similar personalities: they were talkative, and they laughed a lot. Because of this, they were called the "Giggle" twins.

Scientists like to study such cases of twins. They want to answer the classic question, "What's more important—heredity or environment?" Studies with twins like the Giggle twins seem to make a case for heredity, don't they? The twins grew up in different environments, but still the twins are very similar in many ways. But are all the similarities just coincidences? What do you think?

A. Read about a coincidence. Number the paragraphs and the sentence in the correct order.

One afternoon, I was walking around the campus looking for a place to eat lunch when suddenly I heard someone call my name. I turned around. "You're Sean, aren't you?" said a familiar voice.

The three of us went for lunch that afternoon, and Mike and I did a lot of catching up. Since then, I hang out with him and Lee almost every day.

I arrived here in Chicago two months ago as an exchange student. During my first week at the college, everything was still a bit confusing. I felt lonely most of the time. Sure, I had met a few students in my classes, but I hadn't made any friends yet.

"Mike, what are you doing here in Chicago?"

It took me a second to realize who it was. To my surprise, it was my cousin, Mike. I hadn't seen him in five years because his family had moved to the U.S. He was with Lee, a student in one of my classes.

"Well, I live in Chicago and I'm studying economics here at the college. When Lee told me there was an Irish student in one of his classes, I had no idea it was you! What a small world!"

### 8 Drive Slowly!

Reading

### **Before Reading**

- 1. On which side of the road do people drive in your country?
- 2. On which side of the road do people usually walk?

Why must you drive on the right side of the road in some countries and on the left side of the road in other countries? Investigate the question, and you find a lot of confusion on right versus left. About a quarter of the world drives on the left, and most of those countries used to be British colonies. In England people drive on the left, but on escalators they stand on the right, so that people who are in a hurry can go up on the left. In Japan, they drive on the left, too, but people usually stand on the left on escalators.

There are different explanations for the use of right versus left. Some people believe that it is a natural tendency to walk or drive on the right. This is because most people are right-handed.

We can look back in history for reasons people move on the right or left of the road. Some people say that in Europe hundreds of years ago, people rode their horses on the left. This way, their sword was between them and anyone who was coming toward them in the opposite direction. They were ready to pull out their sword and fight to defend themselves with their right arm. There is also evidence that ancient Greek, Egyptian, and Roman troops used to march on the left side. And in Rome, they made it a law in the 1300s. So when and why did the right side become popular?

One idea is that in the 1700s, people in France and in the United States started to use

wagons with several pairs of horses and to drive on the right side of the road. It was easier for the drivers to sit on the left and control the horses with a whip in the right hand, and it was safer if other vehicles passed on the left so the drivers could see the distance between vehicles. Some people say that in England, people always drove on the left, and in France, people always drove on the right.

In any case, Napoleon, a ruler of France, ordered people to drive on the right side in the early 1800s. France conquered many countries at that time, and so these countries drove on the right. But France didn't conquer England, so England kept its custom of driving on the left.

In the twentieth century, there was a trend to the right. Many cars were made in the United States, and they were made for driving on the right side of the road. As recently as 1967, Sweden changed its laws. Now people in Sweden must drive on the right.

So right or left? Just follow the customs of the country where you are—and be sure to drive carefully on that side!

### 11 Writing

**A.** What is the legal driving age in your country? In other countries? Read about getting a driver's license in Canada. In groups, discuss whether you think this is a good system.

In most provinces of Canada, the legal age to start driving an automobile is 16. However, new drivers must successfully complete several stages before they get a full license.

New drivers must first pass a written exam to ensure that they understand the rules of the road. Then they are issued a Learner's License. They are able to drive only under the supervision of an adult for one year, and they must place an L sign on the back of the car.

When young drivers are ready, they must pass a road test with an examiner. Then they are issued a Novice License. They are able to drive on their own or with one passenger in the car, and they must display an  $\mathbb{N}$  sign on the back of the car. After two years of safe driving as a novice, they must pass another road test to get a full license.

The instructor told me to stand up and walk toward the exit door. I thought, "What if my parachute doesn't open?" I've never been so frightened in my life. My camera operator was ready. I couldn't back out now. So I let myself go out the plane. Those were the most exciting and enjoyable seconds that I have ever experienced. I saw the ground getting closer and closer, and I heard the wind rushing by. I checked my altimeter and

pulled the ripcord of my parachute. There was a strong jerk. Suddenly it was calm, and I watched the beautiful landscape below as I floated peacefully to the landing area. Mitch Taylor

I've ridden cross-country for several years, but this was my first cycling tour—and I'm looking forward to the next one. It was spring, there was still some snow on the slopes, and the countryside was green and full of wildflowers. I could smell the fresh scent of the plants in the air when the breeze blew against my face. Biking is much more fun than being stuck inside a car or on a tour bus. I love to be in contact with nature and hear all the sounds: the birds, the trees, the water in the streams. Going uphill can be tiring sometimes, but the views are worth the effort. Daniel Garcia

At first, I was scared, but after a while, I got used to going up and down. The bumps, spins, and shakes were the least of my worries. I've gone to amusement parks since I was a kid, but this was a different matter. It was the real thing, and it was up to us to control the experience and stay safe. I paddled to get away from the rocks, and heard the sound of the boat hitting the water. It splashed up inside the boat, and I got completely soaked. But I wasn't worried about the freezing water. My objective was to get to the end of the journey safely. It was a great feeling of accomplishment when it was over.

### Muhammad Yunus, Nobel Peace Prize Winner

Muhammad Yunus, often called "the world's banker to the poor," received the Nobel Peace Prize in 2006 for his pioneering work against poverty. Yunus said he would use the \$1.35 million prize money to "find more innovative ways" to help the poor.

Yunus founded the Grameen Bank in 1976 with just \$27 from his own pocket. The idea
came to him while he was teaching economics at Chittagong University in southern Bangladesh, which is one of the poorest nations in the world. He and his students started an experimental project: They lent poor people small amounts of money. The people used the money for their own small businesses; for example, to buy straw to make stools. Until then, the local people relied on local moneylenders who were not

10 always fair.

Since then, the Grameen Bank model has been duplicated in more than 100 countries. Today, the bank has over 9 million borrowers and over 2,500 branches in over 81,000 villages in Bangladesh. The bank also started a program to give poor people a loan of about \$9 to purchase small items such as bread, candy, pickles, and toys. Receivers of the loans then resell the goods to supplement their income. The bank reports that it has lent

\$24 billion over the past 38 years and claims a high repayment rate— 99.6 percent. Nowadays Grameen Banks are also in developed countries. One hundred people in Queens, New York, were among the first borrowers of Grameen America. The total number of borrowers worldwide is 100 million.\*

### Mohammed Abdul Latif Jameel, Businessman and Philanthropist \_

Mohammed Abdul Latif Jameel has received many awards for his humanitarian work to solve the crisis of poverty around the world. In 2012, he was named "Saudi Volunteer

- of the Year" for establishing job creation programs in Saudi Arabia and the Middle East. Unemployment is the main cause of poverty, and Jameel realizes that governments need the support of businesses to solve the problem. Jameel says, "My father taught me an important lesson in running a business: never to forget that life is not just about you—it is about what you can do for others."
- Jameel studied at MIT where he joined the Poverty Action Lab. In 2005, he made a huge donation to the organization, and it was renamed J-PAL in honor of his father, Abdul Latif Jameel. J-PAL is a group of expert researchers whose mission is to reduce poverty in the world by finding scientifically-based solutions. In Saudi Arabia, he established the Abdul Latif Jameel Community Initiatives program (ALJCI). One project of ALJCI is Bab Rizq Jameel (BRJ), which focuses on creating job opportunities. Between 2003 and 2012, BRJ created more than 230,000 jobs in
- 30 the Kingdom and over 300,000 in the Middle East. ALJCI also supports projects in business financing, education and training, health, and art and culture.\*\*

### **11** Making Choices

#### **Before Reading**

Have you ever had to make a serious decision in your life? Discuss.

The story goes that in the fifteenth century, in a tiny village near Nuremberg, Germany, lived a family with 18 children. In order to keep food on the table for his large family, the father—a goldsmith by profession—worked almost 18 hours a day.

Despite their hopeless situation, two of the Dürers' elder children had a dream. They both wanted to pursue their talent for art, but they knew full well that their father could never afford to send either of them to Nuremberg to study at the academy.

After many long discussions, the two boys finally worked out a pact. Albert said, "I'll go down in the mines. With my earnings, I'll support you while you attend the academy for four years. When you complete your studies, you'll support me, either with the sales of your artwork or, if necessary, also by working in the mines."

His brother Albrecht agreed and went off to Nuremberg to study art at the academy. Meanwhile, Albert went down into the dangerous mines and, for the next four years, financed his brother, whose work at the academy was almost an immediate sensation. Albrecht's etchings, his woodcuts, and his oils were far better than those of most of his professors, and by the time he graduated, he was beginning to earn high fees for his works.

When the young artist returned to his village, the Dürer family held a festive dinner to celebrate Albrecht's triumphant homecoming. After a long and memorable meal, Albrecht rose at the head of the table to thank his beloved brother for the years of support that had allowed Albrecht to fulfill his ambition. His closing words were, "And now, Albert, blessed brother of mine, it is your turn. Now you can go to Nuremberg to pursue your dream, and I will take care of you." All heads turned to the far end of the table where Albert sat, tears streaming down his pale face, shaking his lowered head from side to side while he sobbed and repeated, over and over, "No... no... no... no."

Finally, Albert rose, wiped the tears from his cheeks and said, "No, brother. I cannot go to Nuremberg. It is too late for me. Look what four years in the mines have done to my hands! The bones in every finger have been smashed, and lately I have been suffering from arthritis so badly in my right hand that I cannot make delicate lines on parchment or canvas with a pen or a brush. No, brother, for me it is too late."

In order to show his gratitude to Albert, Albrecht Dürer drew his brother's abused hands with palms together and thin fingers stretched skyward. He called his powerful drawing simply *Hands*, and the entire world almost immediately opened their hearts to his great masterpiece.

 German Artist Albrecht Dürer (1471-1528)

### **11** Making Choices

I won't risk failing again!

# 11 Writing

A. Read the article about making choices. Circle the gerunds.

#### **Making Choices**

Your life is a result of the choices you make. Some everyday choices are simple and usually have very little impact on your life, while others can have serious consequences on your future.

Deciding what to wear or what to eat for lunch, for example, is usually of very little consequence. If you choose not to wear a jacket on a cold day, the worst thing that can happen is that you may come down with a cold for a few days. Choosing not to study for a test, however, could have more serious consequences. If you don't study, you will probably get a low grade or fail the test. Yet, sometimes making "bad" choices like these can help you learn to make "good" ones in the future. The next time it's cold, you will consider wearing a jacket. And the next time you have a test, you will study hard so that you won't end up failing.

But life also has more important choices to make, such as deciding on a career to follow or which university to attend. Making decisions like these is often difficult, so it's important to think about them carefully. One way to do this is to make a list of the positive and negative aspects before deciding. After

comparing them, the right choice may seem clear. Another thing you can do is ask someone that you trust for advice. An older member of the family or a teacher who has had more life experience will be able to guide you in the right direction.

Remember that you are responsible for making choices, whether they are "good" or "bad." If you realize that a choice you have made is wrong, then it's up to you to decide how to make it right.

#### Writing Corner

- 1. Gerunds and gerund phrases can act as subjects.

#### **Conditional Sentences: Imaginary Situations**

You can use conditional sentences to talk about imaginary or hypothetical situations in the present. Use the simple past in the *if*-clause and *would* in the main clause. If they built a new highway, the farmers would be affected. If I was/were rich, I wouldn't have to work.

The contraction of would is 'd: I'd, you'd, he'd, she'd, we'd, they'd. They'd be happy if they had time to take a vacation.

#### Wish

Use wish + the simple past for things you want to happen in the present but probably won't. They don't have much time. I have to study today. Faisal isn't rich. I can't speak French.

They **wish** they **had** more time. | wish | didn't have to study today. Faisal wishes he was/were rich. I wish I could speak French.

Note: The form of the verb be is often were for all subjects in imaginary situations and wishes.

# When in Rome, Do as the Romans Do

When you are visiting a new place, you should try to act as the local people do. Here are some tips.

#### In Mediterranean Countries 🔺

Eating dinner late is a common custom in Mediterranean countries such as Italy, Greece, and Spain. No one goes out for a meal before 9 P.M., and most restaurants stay open past midnight. It is also common for people in these countries to take an afternoon break. Many stores close for 3 hours in the afternoon, allowing workers to eat with their family, rest, and return to work relaxed.

And remember to stand in line (or as the British say, "queue up") and wait your turn patiently. It's a good idea to talk about the weather, a favorite topic of conversation with the British.

#### In Japan 🔺

In Japan, be prepared to exchange personal or business cards. When a person gives you a card, don't put it in your pocket right away. The person expects you to read it and even comment on it. It is impolite not to do so.

#### In Asian Countries

In many Asian countries, people eat with chopsticks. It's not polite to play with chopsticks or to cut and spear food with them. It's rude to leave them standing up in a bowl of rice. When not using your chopsticks, place them on the chopsticks holder. If you can't manage to eat with them, it's advisable to ask for a spoon or a fork.

### **12** Culture Shock

# 9 Reading 🗾

#### **Before Reading**

What problems do you think people have adapting to a different culture?

# A FISH OUT OF WATER

Almost everyone who studies, lives, or works abroad experiences some degree of culture shock. This period of cultural adjustment involves everything from getting used to the food and language to smaller things like learning how to use the telephone. No matter how patient and flexible you are, adjusting to a new culture can sometimes be difficult and frustrating. Some people get depressed, and very homesick. But don't panic—these are all totally normal reactions and you are not alone.

The term *culture shock* was first used by writer Kalervo Oberg in 1954. He found that all human beings experience the same feelings when they travel to or live in a different country or culture. Oberg identified five distinct stages of culture shock.

#### **1. THE ADJUSTMENT PHASE**

This period can last six months or longer. The newcomer is excited about being in a new place and experiencing a new lifestyle. Some problems may occur, but the person usually tends to accept them as part of the adjustment to another country and novelty of being in a new place. People are generally helpful to the newcomer, and that person feels welcome.

#### **2. EMPTINESS OR REJECTION PHASE**

The newcomer has to deal with the usual problems of accommodation, transportation, shopping (not finding your favorite foods), and very often not being able to communicate fluently in the local language. The local people may not understand why the newcomer is making such a big deal over what they see as a small problem. At this point, the newcomer starts to complain about, and maybe even reject, the new country.

#### **3. THE CONFORMIST PHASE**

Gaining some understanding of the new culture, its ideals, and its values brings a new feeling of pleasure. The crisis is over when the newcomer learns to understand the cultural differences, but hasn't completely adjusted to the new culture.

#### 4. ASSIMILATION PHASE OR COMPLETE ADJUSTMENT

In this phase, the person accepts the food, the habits, and customs of the new country, and may even find some things better than things back home. The newcomer becomes completely adjusted and feels comfortable in the new place. On returning home, the traveler will miss the new friends and the country and will cherish the memories forever.

#### **5. REVERSE CULTURE SHOCK**

This is when the person comes back to the home country. The returnee may have been away from home for a long time and gets a "re-entry shock." Many things may have changed, and it will take a while to get used to home again.

When you travel, remember that a foreign country is not designed to make you comfortable. It is designed to make its own people comfortable. —Clifton Fadiman

Culture makes people understand each other better. And if they understand each other better in their soul, it is easier to overcome the economic and political barriers. But first they have to understand that their neighbor is, in the end, just like them, with the same problems, the same questions. —Paulo Coelho

What do you know about aptitude tests and IQ tests? Have you ever taken one?

# **APTITUDE AND IQ: WHAT'S THE DIFFERENCE?**

•

#### **Aptitude Tests**

Nowadays, millions of people—young and old—use aptitude tests to help them decide on a career path or a career change. Many employers also find them useful in their selection of new employees. Aptitude tests can be particularly beneficial for high school students who are uncertain about what career path they should follow.

Very few adolescents have a clear idea of what they want to do when they grow up. They often don't know where to begin searching for a job, let alone realize the vast number of career options that are available. Career

aptitude tests can help steer students in the right direction by assessing their natural abilities.

What is aptitude? First, aptitude should not be confused with academic knowledge, skills, personal interests, or intelligence. Aptitudes are natural talents—special abilities for learning to do certain tasks quickly and easily. Skills and knowledge are learned, but aptitude is something you are born with. For example, an accountant who has learned the skills for the job, but has an aptitude for something else will probably find his work unrewarding and difficult. On the other hand, someone who knows nothing about accounting may have the aptitude to learn the necessary skills quickly and easily.

A career aptitude test determines someone's strengths, weaknesses, and natural ability to perform and succeed in certain professions. Common areas of testing are: logical reasoning, mathematical ability, mechanical understanding, spatial awareness, and communication. The results are best when combined with interest and personality tests to assess what types of work a person would most likely enjoy and perform well.

#### **IQ** Tests

 $( \bullet )$ 

IQ stands for Intelligence Quotient. The typical IQ test produces a score that compares the test taker's cognitive ability to the general population. A score between 90 and 110 is average, and a score over 130 shows exceptional intelligence—a genius. So what exactly does an IQ test measure? More simply, it assesses the ability to understand concepts and solve different types of problems using logic. This includes spatial ability, mathematical reasoning, language ability, and memory. A sample math question might be: "Ben bought three books for \$5 each with a 20% discount. How much did he pay?"

IQ tests, however, are not particularly useful in career planning. Two people with the same IQ may have very different aptitudes. Occupations of famous people with high IQs include authors, journalists, businessmen, scientists, inventors, computer specialists, lawyers, cartoonists, actors, boxing champions, and race car drivers.

Taking a nap is recommended for both religious and health reasons. Do you take a nap in the afternoon? Do you feel sleepy after a large meal?

## TAKING A SIESTA

"Sleep is the golden chain that ties health and our bodies together." Thomas Dekker "A good laugh and a long sleep are the best cures in the doctor's book." Irish Proverb

#### "A well spent day brings happy sleep." Leonardo da Vinci

The idea of taking a siesta—an afternoon nap—and closing business for a few hours during the day is frowned upon by most Americans and Northern Europeans. In their cultures where "time is money," a sleep break is considered wasteful and unproductive. However, in many Latin, Asian, and Mediterranean cultures, taking a nap and an afternoon break is part of the daily routine.

Since the daytime nap is a custom in Spain, the Spanish word *siesta* is used to refer to a short rest after the midday meal. Many believe that the original concept of siesta was created to allow people to spend time with their family and friends. Today, it is a common practice in many countries where the weather is warm. The high temperatures, especially in summer, combined with a large meal contribute to a feeling of sleepiness. Still, some colder regions of Latin America practice siesta. In these cases, the tradition seems to be based on cultural influence rather than climate.

#### Here are some benefits of siesta:

**BIOLOGICAL NEED:** Some doctors believe that the body is designed to sleep for shorter periods of time rather than in one large dose. Also, the body's blood sugar levels drop after a big meal, inducing drowsiness. This explains why many people may feel sleepy after lunch.

**PROTECTION FROM THE SUN:** Siesta takes place when the sun is at its highest point. This is when the temperature is hottest and the sun's rays are strongest. Avoiding the sun during midday protects people against sunburn, sunstroke, skin cancer, and heat exhaustion.

**HEALTH:** Studies have shown that people who nap regularly during the week are 37% less likely to suffer from heart disease. Napping helps people relax and reduces their stress levels.

**IMPROVED MEMORY:** Other research has found that people who took a short nap were able to remember information they learned better than those who did not nap.

### **Prince William of Britain**

Prince William is the grandson of Queen Elizabeth II of Britain. He was born in London, England, on June 21, 1982. He is the elder son of Charles and the late Lady Diana, Prince and Princess of Wales. He has one younger brother named Harry.

William was educated at private schools in England. He attended one of the oldest high schools in England, Eton College. At Eton, he was captain of the football team and took up water polo. After graduation, William took a gap year, during which he trained with the British Army, traveled in Africa, and taught children in a small town in Chile.

He returned in 2001 and enrolled at one of the oldest universities in Scotland. He began studies in art history, but later changed his main subject to geography. William went on to earn

Map of Britain

a Master's degree—the best degree of any heir to the throne of Britain. He then decided to follow a military career and trained at the Royal Military Academy in 2006. He served in the Armed Forces with his brother, and two years later he earned his pilot wings. In 2009, he transferred to the Royal Air Force for helicopter training. He later served as a pilot in the Search and Rescue Force.

Prince William now makes public appearances and performs his many royal duties—among which he is President of England's Football Association. And, like his mother, the late Lady Diana, he continues to help others by actively supporting many humanitarian causes.

### **GUIDE TO NIAGARA FALLS**

### Things to Do

There is a lot for the whole family to do in Niagara Falls. A helicopter ride provides a wonderful view of both the American falls and the Canadian falls. During the ride, you can take great pictures to show your friends back home. A favorite with all the tourists is the Journey Behind the Falls. You'll put on a raincoat, take an elevator, and get out at the bottom of the falls. From there, you'll see, hear, and feel the excitement as the water crashes down from the height of a twentystory building. It's an unforgettable experience!

### **Places to Stay**

### The Broadview Hotel

Many visitors want to stay at the Broadview. The rooms are small, but the views of the falls are wonderful. The hotel restaurant is good, but very fancy. You'll have to wear your best clothes. The Broadview is expensive, but its guests receive very special treatment. And for your information, the hotel doesn't have a pool, but it has excellent workout facilities for people who like to exercise.

۲

### Martin's Motel

Martin's Motel is a really friendly place. When you check in, Martin shows you to your room. The rooms aren't fancy, but they're large and they have cable TV. There is an outdoor swimming pool and a game room especially for children. It's just a 15-minute walk to the falls. And if you're hungry, you can eat at the diner next door. The food is good and cheap, and the diner is open 24 hours a day. You won't have to dress up to eat there. Families that stay at Martin's always have a good time.

### Write **T** for **True** or **F** for **False**.

- 1. \_\_\_\_\_ Visitors wear raincoats to go behind the falls.
- 2. \_\_\_\_\_ You can't take pictures on the helicopter ride.

- 6. \_\_\_\_\_ You have to wear a suit or dress to eat at the diner next to Martin's Motel.

H Answer these questions about the reading.

- 1. You can stay at the Broadview Hotel or Martin's Motel. Where will you probably stay? Why?
- **2.** You can take the helicopter ride or the Journey Behind the Falls trip. Which will you probably take? Why?

### Food Is Not Just for Food

Do you like bananas on cereal, roasted garlic, or cucumbers in salad? Believe it or not, each of these foods is also a medicine. Thousands of years ago people started using foods to cure everyday health problems. Today, people still use many of these foods as medicines. Each culture has its own favorite food remedies. Here is a short list of illnesses and some of the foods people use to cure them.

#### **Headaches**

- Peel several very ripe bananas. Wrap the peels in two different pieces of cloth. Place one over the back of your neck and the other on your forehead.
- Peel a large lemon. Rub the skin of the lemons on your forehead. Then put the pieces in a cloth and place it on your forehead. The pain will stop.

۲

#### **Tired, Red Eyes**

- Peel and slice up a very ripe apple. Let the fruit get brown. Place the pieces on your closed eyes. Leave them on for at least half an hour.
- Place thin slices of cucumber over your closed eyes and lie quietly for a few minutes.

#### A Cold

۲

- Put two cloves of crushed garlic in a bowl of boiling water. Add one tablespoon of vinegar. Cover your head and the bowl with a towel. Breathe in the warm vapors.
- Soak a piece of brown paper in vinegar. Shake pepper on one side. Place the peppered side of the paper on your chest. Leave it there all night, if possible.

Have you ever heard of any of these remedies? Most people in the medical profession say that there is little research to prove any positive results from these old food remedies.

Since the 1700s, people have tried many different ways of traveling over land. They wanted to move more quickly and more comfortably than they could on horseback. Inventors have produced several different kinds of car engines since 1760. First, they tried steam engines. But they were noisy, and the driver had to stop frequently to get more water. Then they tried gasoline engines. The inventor of the modern gasoline-powered automobiles was a German named Karl Benz. He made his first car in 1886. His company later became Mercedes Benz, and it is still making cars today.

Automobile companies have added many improvements to cars over the years. Have you been in a car in rainy or snowy weather? Was it difficult to see the other cars on the road? A hundred years ago, it was almost impossible to drive in bad weather. People had to get out of their cars and wipe the windshields of their cars every few minutes. However, today, we have windshield wipers. M. Anderson invented the windshield wiper in 1903, and by 1913 almost all American cars had them. And today you can't buy a car without them.

Another invention that has become very popular is the bucket seat. Steve McQueen, a famous American actor, invented this type of seat. McQueen worked on cars and was a race car driver. He needed a seat that was comfortable when his car was going very fast. Have you ever sat in a bucket seat? It's lower than a regular seat, and most people say it's more comfortable. Manufacturers have put bucket seats in cars for over forty years now.

Auto manufacturers have improved cars. They've added things that make driving easier and more comfortable for drivers. Windshield wipers and bucket seats were only the beginning. Now many cars have GPS devices and even computers to help drivers park. Cars have come a long way in one hundred years!

#### **Small Town America**

Do you know what the expression "small town America" means? Sometimes people use it to describe living in a small town in the U.S.A. There's a big difference between the quality of life in a large city and in a small town. That's true in any country.

Some people prefer to live in the city because there are a lot of people to meet, a lot of places to eat, and a lot of things to do. The pace of life is faster in a big city than it is in a small town. So for some people, the expression "small town" or "small town America" is another way to say that something is slow or even boring.

۲

Officially a town has to have less than 10,000 residents to be considered a small town. In other words, a small town is even smaller than a small city. Many young people who grow up in small towns leave for life in the big city. But there are those who regret their move to the big city and want to move back to their small town life. Why? Many miss the

community—the friendly neighbors, the close friends, and the looking out for the other person that are often characteristic of a vibrant small town.

The top ten best small towns in the U.S.A. are voted on annually. These are the towns that people miss when they move away. These are the towns that have citizens who are excited about living in their small town. Recently, Hammondsport, New York was voted the best small town in America.

Young people in small town America often do very different things for fun than their big city counterparts. Some of the exciting things young people in small town America do include riding ATVs (all terrain vehicles), riding horses, and even riding snowmobiles when it snows!

Answer the questions.

- 1. What are three reasons some people like to live in a big city?
- 2. How many people have to live in a town for the town to be considered a small town?
- 3. Why do some people regret moving to the big city from a small town?
- 4. What is the name of the town that was recently voted as the best small town in America?
- 5. What are three things that young people like to do in small towns?

#### A Special Bond

There is a very special bond—or tie—between identical twins. Of course, identical twins look alike. When they get older, they sometimes even have the same number of wrinkles around their eyes. Most twins also share a special bond, an amazing feeling of closeness with each other. And identical twins behave alike. For example, one pair of twins both walk into the ocean backward and only up to their knees.

For John and William Bloomfield, the special bond

went beyond life. The Bloomfield twins did everything together. One night they were eating dinner together at a restaurant. John—or perhaps it was William—had a heart attack and died. His brother immediately had a heart attack and died, too. The medics couldn't save either brother, or even figure out who was John and who was William.

۲

California twins Ronald and Donald Anderson shared a single life. Everyone thought there was only one Mr. Anderson. One day Ronald Anderson robbed a bank. The police were sure that Ronald Anderson was the thief. They saw him running away. There was one problem: When the bank was robbed, Ronald Anderson was already in jail. If he was in jail, he was not the thief. The police were confused. Finally, they found the answer. There were two Anderson brothers—twins! For many years, they pretended to be one person. *Donald* Anderson was in jail. *Ronald* Anderson robbed the bank. Now Ronald Anderson is in jail, too.

Answer the questions.

- 1. What is the special bond between twins?
- 2. How did John and William Bloomfield die?
- 3. What was unusual about their deaths?
- 4. Why did people think that there was only one Mr. Anderson?
- 5. Who really robbed the bank?

#### **Teenage Driving**

"Colin, you just ran a red light!" Brad shouted from the back seat of the car. "Did I? Sorry! I didn't even see the red light." A few minutes later, Colin saw a stop sign—after he ran it. He was driving over the speed limit.

When they got to Mark's house, Colin called his mother. "Mom, we're at Mark's house. Everything is OK. I drove safely."

۲

Teenage driving is sometimes a problem. In the United States, more teenagers die from accidents than from any other cause. There is a higher risk of accidents with 16-year-old drivers than with 17- and 18-year-old drivers. Also, when teens drive with other people in the car, they have accidents more often than when they're driving alone.

What is the reason for the teenage driving problem? Are teens reckless and dangerous drivers? Some people say teenagers are too young to drive. Other people don't agree. They say that the problem is just that teenagers are new drivers. They just need more practice and experience.

What is the solution to the problem? Some people think the solution is "graduated licensing." Here's what this means: A 16-year-old can get a license, but the license has limits that change over time. For example, at first the 16-year-old must drive with an adult. Then he can drive alone. The 16-year-old must not drive with other teenagers or must not drive at night. When the teenager has more experience, he can have a license with no limits. Some countries are trying graduated licensing, and it seems to be working well.

Answer the questions.

- 1. Why was Colin driving recklessly on the way to Mark's house?
- 2. Which of these is **less** safe than the other—a car with a teenager driving alone or a car with a teenager driving with friends?
- 3. What are two ideas that people have about why teenage driving is sometimes a problem?

A

4. What limits does a teenager with a graduated license have at first?

Khalid, who is 18, has just graduated from high school. His parents want him to start university right away, but Khalid wants to start university next year. First, he wants to travel to different places around the world. His parents say that traveling will distract him and delay his studies. Khalid believes that traveling will be an exciting experience. It will make him more independent and confident, and it will also give him time to make responsible decisions about his future. What do you think?

To help people make decisions like these, you need to ask some questions:

- What kind of person is he? Is he a person who is lazy? Is he a person who is adventurous?
- What does he like to do? Does he like to do something that is exciting? Does he like to do something that is boring?
- What does he want to do? Does he want to do something that is important? Does he want to do something that is helpful?

Answer the questions.

- 1. What job does Saeed have now?
- 2. What does Saeed want to be? Why?
- 3. Why don't Khalid's parents want him to travel for a year?
- **4.** Should Khalid go to university or travel for a year? Why?

#### Living with a College Roommate and Enjoying It

Many students go away to college and need accommodation. Apartments are often expensive. For students who have a tight budget, it can be a good idea to share an apartment. Money is not the only reason to have a roommate. Sharing an apartment can be fun.

۲

But life with a roommate can also be a very bad experience. Some sociologists did a study of college students who shared a room. They found that students who had problems with their roommates were not happy at school and got sick more often than other students.

So how can you enjoy living with a roommate? Here is some advice:

- Being roommates with a friend can be hard. Friends who you see once in a while can be different when you live with them all the time. So before you decide to live with a friend, discuss the situation carefully.
- Before you decide to live with someone you don't know, talk to your potential roommate. Be honest about your habits and the things that irritate you.
- When you move in with a roommate, make rules. Decide how you will share the chores. Decide if you will share food. Is it OK to have guests? And what about making noise?
- Don't get angry at small things that your roommate does. Remember that no one—including you is perfect.

Answer the questions.

- 1. What happened to the college students who had problems with their roommates?
- 2. What should you do before you become roommates with a friend?
- 3. What should you do before you become roommates with someone that you don't know?
- 4. What are some things you and a roommate should make rules about?

#### Who Influences Teens?

The teenage years are a time of life when people must make many important choices. Teenagers need to think about questions like these: Should I go to college? What kind of career do I want? Each person must make his or her own choices. But other people influence our choices. Who influences teens? Teens were asked this question, and here's what they said.

It depends on the kind of choice. When teens buy things, friends are the most important influence. This is especially true for clothes and electronic devices. Television shows, advertisements, and parents also influence teenagers. In more serious matters, parents are probably the most important influence. Some teens say it's best to have parents and friends as influences. One seventeen-year-old girl says, "Parents are able to tell us what's right and wrong because they have experience. And they always want what's best for us."

But teens also feel they need to make their own choices to make their own mistakes. As one teenage boy said, "If our parents don't let us make our own choices, maybe in the future we won't know how to." And they feel friends can often be a big help, especially because friends sometimes know more about their situation than their parents do. For example, one boy said his friends stopped him from making the wrong decision. He wanted to quit the basketball team because the coach wasn't nice to him. His friends kept saying, "You're a great player. The coach just wants you to try harder." Finally, he saw that they were right. "Thanks to the coach," he says, "I'm a better player than I used to be."

Complete the sentences. Use the information in the text.

- 1. Teenagers have to make decisions about college and their \_\_\_\_\_
- 2. Teenagers' \_\_\_\_\_\_ are the most important influence when they buy things.
- 3. Teenagers often go to their parents for advice on \_\_\_\_\_
- 4. Many teens think that it is a good idea to make decisions with the help of \_\_\_\_\_\_.
- 5. To some teens, it is OK to sometimes \_\_\_\_\_\_ when they make decisions.

They learn this way.

And if he does your chores, you will have more free time this month. However, if you write his report for him, he won't learn anything. Should you write his report? Is there another solution?

Learn to Speak the Language

When you go to another country, you should learn to speak the language. This isn't something you can do with just a dictionary and a grammar book. Allow me to explain.

4

Words don't always have their literal meaning. When I went to Japan for the first time, I knew that the Japanese word for "yes" is *hai*. I went to discuss an important business issue. At the end of the meeting, I summarized my plan and asked my Japanese colleague, "Do you agree?" He answered with *hai*. That night I called my boss and told him that the Japanese company was ready to go ahead with the plan. The next day I had to tell my boss that this wasn't true. It turns out that the Japanese often use *hai* to mean "I've heard you. I understand."

Gestures are worse than words. They often have a meaning that is very different from the meaning you know. When I was in China, I saw people waving their hands at other people. They waved their hands the way I do when I want to tell someone to go away. But every time a Chinese person did this, the other person came nearer. Finally, a Chinese friend explained that this was the gesture for "come here."

This experience didn't prepare me for the taxi in Bulgaria. When my plane arrived in Sofia, I was tired. So I was happy that a taxi was right there. "OK?" I asked, opening the door. The taxi driver moved his head up and down, so I jumped in. "Downtown, please. OK?" I said. The taxi driver nodded again, but nothing happened. Finally, I became angry and jumped out. Guess what? In Bulgaria moving your head up and down means "no" and shaking your head from side to side means "yes."

#### Write *T* for *True* and *F* for *False*.

- **1.** \_\_\_\_\_ Words sometimes have more than one meaning.
- 2. \_\_\_\_\_ In Japanese, hai always means "yes."
- **3.** \_\_\_\_\_ Waving one's hand in China means "come here."
